

SEVEN LEVELS OF DELEGATION

Developing each other is good for all of us.

1. I'll lead the process. You can shadow and observe to get more comfortable.
2. Look into/read through this for me and give me a background briefing that we can discuss.
3. Look into this and give me your advice or plan of action and I'll decide.
4. Explore, set out plan and check back with me. We can decide together.
5. Scope out a plan, and give me your recommendation before you act, but the decision will be yours.
6. Explore, decide and act within certain conditions (eg within budget, risk matrix). Let me know how it went and what you learned.
7. This is yours now. Go for it and check in if you need.
